

## PROFESSOR IN MARINE BIOLOGY

[Research department and available position]

Research Center for Marine Biology (at Department of Developmental Biology and Neurosciences) of TOHOKU UNIVERSITY Graduate School of LIFE SCIENCES invites applications for a faculty position in MARINE BIOLOGY at the rank of Full Professor.

[Location]

Asamushi, Aomori, Aomori 039-3501, JAPAN

[Qualification for application]

Applicants should have achieved a record of distinction in a discipline of marine biology and life science with marine organisms as research materials. Applicants with the ability to develop innovative research and to obtain extramural support will be considered as candidates for this position. The professor will participate in administration of the Asamushi Research Center for Marine Biology and promote functions of the center for the research/education program of National joint-use/collaboration center for "Marine Biology in Tohoku Areas". For these purposes, applicants should have basic ability of communication in Japanese.

[Application documents]

- 1) Curriculum vitae
- 2) Summary of current research and major achievements (600 words)
- 3) Statement of research plans and teaching interests/philosophy (600 words)
- 4) Ten selected reprints with short descriptions of five main papers (total, 400 words)
- 5) List of research grants and competitive funding in the past ten years
- 6) Contact information for two references

[Deadline]

5:00 p.m. on October 1st (Mon.), 2012 (Japan standard time)

[Start of employment]

at the earliest possible time after April 1st, 2013

[Contact information for submitting documents and making inquiries]

Submitted documents will be accepted only as printed documents through airmail to Dr. Koji Tamura, Department of Developmental Biology & Neuroscience, Tohoku University Graduate School of Life Sciences, 2-1-1 Katahira, Aoba-ku, Sendai 980-8577, Japan. Documents in Japanese are also welcome. See also information in Japanese at the following URL.
