

Fakulta rybnářství
a ochrany vod
Faculty of Fisheries
and Protection
of Waters

Jihočeská univerzita
v Českých Budějovicích
University of South Bohemia
in České Budějovice
Czech Republic

Vacant Position

at the Faculty of Fisheries and Protection of Waters
from the University of South Bohemia in České Budějovice
Research Institute of Fish Culture and Hydrobiology
Zátiší 728/II, 389 25 Vodňany, Czech Republic

We would like to offer an interesting position for you or your colleagues in any field of fishery science (reproduction of fish or germ cells preferentially) for a one year and a half period from mid of 2014 to the end of 2015.

This offer constitutes a very good opportunity for a top level post-doc or researcher, therefore an excellent CV is important.

The position will be held in our institute in Vodnany; it can be a part-time or full-time position, implying to spend at least 80% of time to research (rather 100%). The recipient will receive 3000 € per month (minimal gross salary), a point which is to be discussed (increased) according to quality level of the applicant. It is worth to take into account that the living cost in Czech is quite low: as examples, accommodation ranges 160 €/month, half litre of beer in a pub is 1 €.

In addition the recipient will receive a substantial amount of money for his research (material, service, investments) and is supposed to lead his/her own team. This team can be up to 8 persons recruited by the applicant or already belonging to our institute and their salaries can be also discussed. It is meant that the recipient can join the Institute accompanied by former colleagues. The research project can support also cooperation and research exchange with other institutes.

If you or some of your colleagues are interested, please contact me or send me CV at the email: psenicka@frov.jcu.cz **until 31st of August.**

Thank you

Yours sincerely

Martin Psenicka, PhD

Head of Laboratory of Reproductive Physiology
